- No minimum order value
- No minimum quantity surcharge
- Customized stockholding

Our portfolio - proven quality.

Switch cabinet products at Börsig

The electrical cabinet construction is an important element as a part of a technical plant or machine and serves the professional control of technical processes. Inside there are electrotechnical components like switches and terminal blocks to control these processes.

With Börsig GmbH you have a competent partner in this area. The supplementing portfolios among other things of the manufacturers Bopla, C&K, Phoenix Contact, PTR Hartmann and TE Connectivity cover nearly all needs in and around the control cabinet. We are happy to support you.

Enclosures

Enclosures are used, for example, to protect control elements from external influences in accordance with IP and IK standards.

Switches & Luminaires

We offer a wide range of switches and lamps to illuminate and operate your and efficient illumination and operation of your cabinet.

Power distribution

Power modules enable wireless snap-on by plug-and-play and are connected to the busbar with just one click.

Terminal blocks

Terminal blocks can easily be mechanically attached to or detached from the mounting rail, also called „top-hat rail“.

Communication

Data transmission through network protocols from the control level to the field is used for industrial communication and takes place via the corresponding hardware.

Connectors

Connectors are available in many different designs; with us you will always find the right solution for transmitting power and data, from the classic round connector to the heavy-duty industrial connector.

Cables & Feedthroughs

Cable glands and feedthroughs are used for protection and tidiness in the control cabinet or around the outside. They also make it much easier to connect cables.

Tools

Tools are used, among other things, for crimping, stripping and cutting contacts or cables to ensure efficient processing of switches and connectors.

Our manufacturers in the portfolio:

- binder
- Bulgin
- C&K
- CONEC
- eao
- Glenair
- HARTING
- HUMMEL
- Oshino
- PHOENIX CONTACT
